

# Southland Maple Beech Rustic Panelling

Southland Maple Beech Rustic Wall Panelling is the perfect solution for creating ambience in an interior environment. The rustic grade is a fantastic utilisation of the ‘whole of tree’ ensuring it is one of the most economic and visually appealing wall and ceiling panelling solutions available on the market.

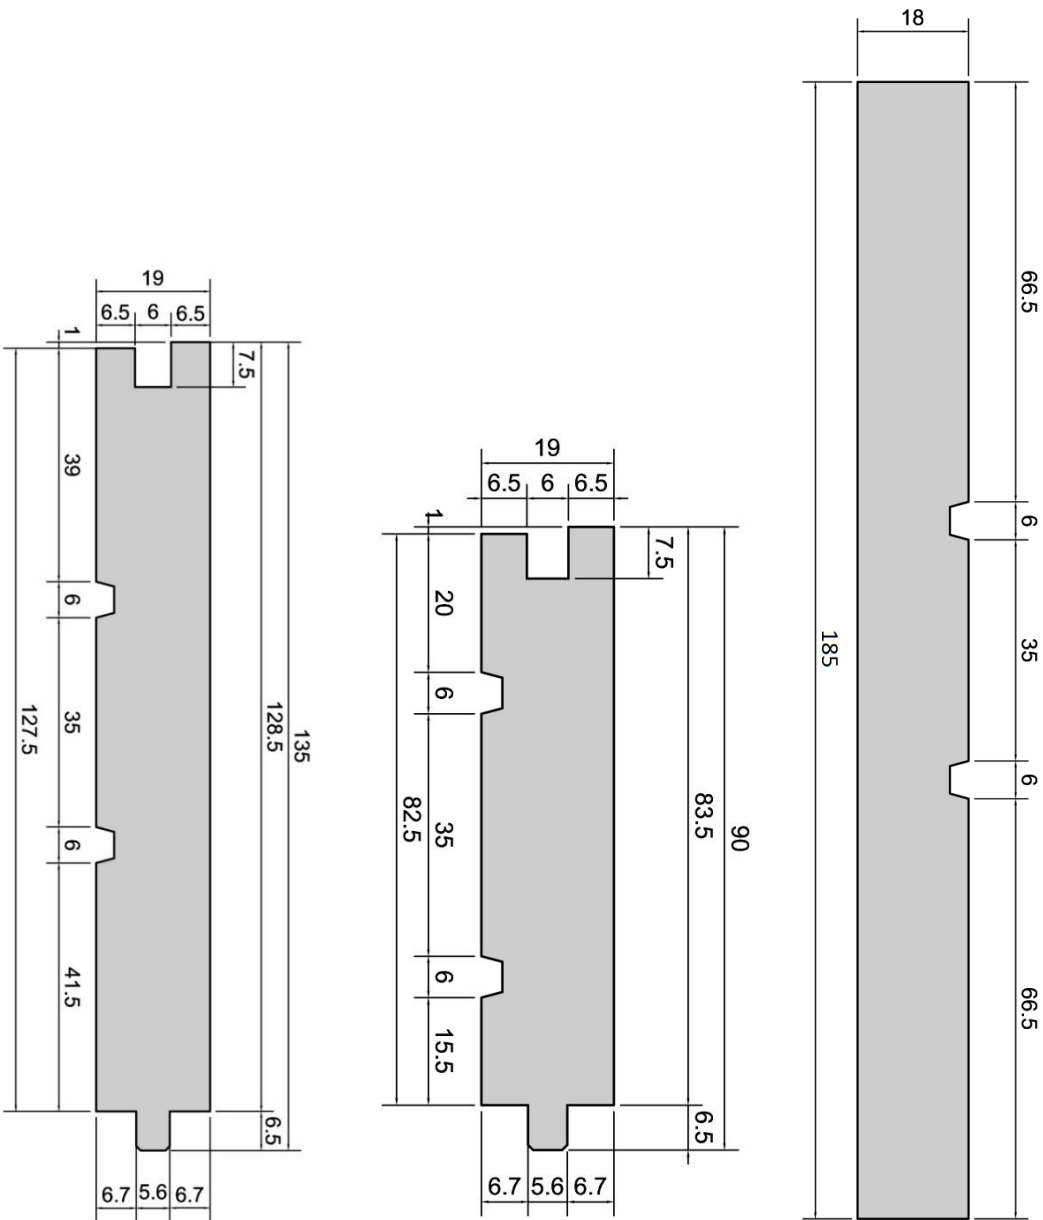

Our rustic wall paneling is typically supplied with a fine textured surface however it is also available with a smooth finish, wire brushed finish or heavy sawn finish. It can be installed vertically or horizontally. To best showcase the rustic features, boards are typically supplied in sizes of 90x19, 135x19 and/ or 185x19. Board widths can be mixed to create a random width appearance.

Southland Maple Beech Rustic Panelling is suitable for interior wall & ceilings in residential and commercial applications. It is particularly well suited to projects with an environmental or ‘eco-friendly’ focus given it is FSC Certified and is the best use of the entire Southland Beech tree.

The rustic features can be left natural or filled with a timber filler for effect. All features are of sound structure and integrity ensuring a timeless look and a life time of performance.
